SUMMARY

Full Stack Java Developer skilled in designing dynamic, responsive, and scalable web applications. Proficient in React.js, Spring Boot, and MySQL, with hands-on experience building RESTful APIs and intuitive UIs. Adept at solving problems and collaborating in agile environments. Seeking a full-time software development role to contribute technical expertise and drive impactful solutions

EXPERIENCE

Frontend Developer Intern

Babhale Infotech Solution LLP., Nagpur ,India

January 2025 – Present

- Developed 5+ responsive interfaces using React and Bootstrap.
 - Created modular and reusable components to reduce redundancy.
 - Improved UI responsiveness using the Bootstrap grid system.
 - Integrated REST APIs to display real-time data efficiently.
-

PROJECTS

Personal Portfolio Website

- Built a fully responsive portfolio site with sections like About, Skills, Projects, and Contact.
- Used React.js and Bootstrap for layout, with smooth scroll and clean navigation.
- Emphasized design clarity and mobile responsiveness.
- (Technologies: React.js, Bootstrap, HTML, CSS)

Student Management System

- Developed a console-based application for managing student records (Add, View, Update, Delete).
- Used JSP and Servlets for backend logic and dynamic content rendering.
- Ensured modular design for maintainability.
- (Technologies: Java, JSP, Servlet, HTML, CSS, Bootstrap)

E-Commerce Website

- Designed a full-stack web application for shopping and order management.
 - Implemented user authentication, product listing, cart functionality, and order placement.
 - Backend with Spring Boot and frontend with React.js ensured seamless integration.
 - (Technologies: React.js, Spring Boot, MySQL, Bootstrap)
-
